

N. J. REPUBLICANS VOICE BUGBEE IDEA

State Convention Formulates
Gubernatorial Candidate's
Views in Platform

PARTY LEADERS IN TRENTON

Trenton, Sept. 30.—The Republican and Democratic state conventions were opened here today and each is formulating a party platform for the campaign.

Conference committees of each party were busy this morning prior to the opening of their respective meetings building the platforms to be presented to each convention for action this afternoon.

Those entitled to sit in the conventions are the holders of senators of each party, the senatorial assembly and gubernatorial candidates and the members of the respective state committees. Both the Republican and Democratic conventions were marked with great enthusiasm and partisan speechmaking.

Another feature of the day outside the conventions was the organization of the Republican and Democratic state committees.

The Republican convention was called to order shortly after noon in the Republican Club by State Chairman Edward C. Stokes and a temporary organization was formed.

Democratic State Chairman Charles F. McDonald, of Monmouth county, called the Democratic convention to order at the headquarters of the Democratic league and the temporary organization was taken up.

Platform planks on the main issues of the campaign were virtually settled upon by the Republican conference committee prior to the opening of the convention. On the prohibition question the platform, which is ready for submission to the convention, declares that the eighteenth amendment is established as part of the federal constitution and its ratification is no longer necessary or a political issue in this or any other state. It is understood that this declaration is satisfactory to the New Jersey Anti-Saloon League and, therefore, the league will not put into the race Filmore Condit, of Essex Falls, who was prepared to run on an independent Republican ticket.

Endurance Test in Steel Strike

Continued From Page One

Today announced there was not much change at its plants in the Pittsburgh district nor in the Cleveland and Chicago fields. Some departments at its works in the Chicago district will make efforts to resume tomorrow.

The Homestead, Braddock, Rankin and Duquesne plants of the Carnegie Steel Company were reported to be operating today with more men than on any day since the strike started.

In Braddock it was said the Edgar Thomson plant, a subsidiary of the United States Steel Corporation, was hiring new men. This is said to be the first attempt in this district of a large plant engaging new men to take the places of strikers.

Company reports from Sharon, Farrell and New Castle declared that conditions are improving from the employers' viewpoint. In New Castle steel company officials claim the number of strikers has been reduced from 5000 to 1800. These figures are disputed at steel headquarters here, where it is contended the men at New Castle are standing firmly.

Reports Still Conflict

Conflicting reports regarding the Laughlin Steel Company in Pittsburgh were again given out today. The strikers are persistent in their claims of steady defections from the works. The company pointed out that the plant is in operation and that it is not seriously affected by the strike.

The offensive by the employers will be continued today and for the remainder of the week, according to their representatives and the opinion is freely expressed that before next Sunday, plants which were forced to shut down because of the strike will be operating on full time. Strike leaders contending this offensive, said they will keep a large force of union organizers in the field every day, and will exert every effort to make the walkout more effective by bringing additional workers into the union.

Must Speak in English

A new development in the union's fight for "free speech and free assembly" in Allegheny county came today, when Corporal Harry Smith, in charge of Pennsylvania state police at Braddock and Rankin, announced that speakers, addressing meetings of strikers, must not speak in any foreign language. For many weeks the authorities of several towns in the county placed a ban on all meetings of union workers and many such gatherings were dispersed by local and state police.

Under a recent order of the sheriff, the strikers may meet in halls, but not outdoors. Corporal Smith, in his order published today, says state troopers will attend all sessions of strikers here.

ASSERT BETHLEHEM STRIKE IS FAILURE

By a Staff Correspondent

Bethlehem, Pa., Sept. 30.—For the first time since the strike in the Bethlehem Steel Company's plant started the company officials today gave definite figures to substantiate their assertion that the strike has proven a failure.

H. E. Lewis, vice president of the company, said that 88 per cent of the men were at work today.

Statements of the company were that there was a slight improvement in the condition at the plant over Monday, the first day of the strike. The Sparrows Point, Md., company, reports said, and those at Steelton and Lebanon were working on virtually 100 per cent production.

In the Bethlehem plant it was declared conditions of operations were the same as on Monday. No material changes in the 15 per cent shortage of men was noticeable, officials said. This, they explained, was so slight, as to be scarcely noticeable among 13,000 workers.

No machine shop reported very substantial increase in the number of its workers today. No 2 machine shop, which made a good showing Monday, made a better showing in the number of workers.

The coke ovens, blast furnaces, rolling mills and open-hearth furnaces were all working, full blast today, the officials said. There is not a full complement of workers in a few of the smaller mills in the Bethlehem plants.

Some machine shop men who quit in response to the strike call of the union, returned to work today. Officials of the Bethlehem company, explaining how few men in some cases were needed to operate a steel mill, declared that in some of the smaller mills the working complement numbered but thirty men.

The Bethlehem company has reduced its force of eighty-five uniformed guards about the plant to half that number. The order was issued early today. Officials of the company declare that most of the absentee workers are residents of Allentown. Less than a thousand workers in the big plant live in that city, distant five miles from here.

HINT OF RESUMING STIRS OHIO MEN

Youngstown, O., Sept. 30.—(By A. P.)—Hundreds of steel strikers and nearly the entire city police force were massed today at the Ohio works of the Carnegie Steel Company, the only steel plant in the valley which shows signs of attempting to reopen. A statement from its superintendent said 500 men were in the mill doing repair and upkeep work and 125 of the mill's employees announced they would return to work today to prepare to operate the plant, which normally employs 2800.

The entrance of groups of workmen and reports that the mill is preparing to operate kept the pickets on the alert and streets leading to the works were lined for blocks with men. The superintendent's statement, however, said the plant could not be operated this morning and added that its opening depended on the decision of the workmen, who are said to have discussed the question of returning to work.

A mass-meeting of strikers has been called for today at Lincoln Park, in a residence section of the city.

Observers at the Carnegie plant here said the number of men entering this morning was approximately the same as entered yesterday. It is said some of the men who voted yesterday to return to work were among those who had already been working in the mill. There was no disorder about the mill entrance.

Cleveland, Sept. 30.—(By A. P.)—Resumption of picketing followed a declaration by company officials that 200 men returned to work at the H. P. Nail plant yesterday, which union P. Nail plant yesterday, which union

TO PROBE KILLING AT BUFFALO PLANT

By a Staff Correspondent

Buffalo, N. Y., Sept. 30.—(By A. P.)—The city court in Lackawanna today took up the case of fifteen men arrested on charges of inciting to riot and of disorderly conduct in connection with the fatal strike disorders of last Tuesday. Meanwhile, it was announced that police investigations to fix the responsibility of the killing of two strikers and the wounding of several others had failed of their purpose and that an inquest would be held.

Lackawanna Steel Company police-men will be summoned to testify at the inquest, it was announced after a conference between city and county officials. Chief Gibson, of the Lackawanna police department, said that the steel plant policemen had been reluctant to tell their story of the shooting to the investigators, preferring to go before a legal tribunal.

Strike leaders last night and today were busy marshaling their ranks to prevent any extended defection. Between 200 and 300 men returned to work at the Lackawanna plant yesterday, although union pickets were stationed at the gates. The men were taken to their homes in automobiles after work and there was no disorder at the gates, where doubled forces of policemen and state troopers were on duty.

No machine shop reported very substantial increase in the number of its workers today. No 2 machine shop, which made a good showing Monday, made a better showing in the number of workers.

The coke ovens, blast furnaces, rolling mills and open-hearth furnaces were all working, full blast today, the officials said. There is not a full complement of workers in a few of the smaller mills in the Bethlehem plants.

Some machine shop men who quit in response to the strike call of the union, returned to work today. Officials of the Bethlehem company, explaining how few men in some cases were needed to operate a steel mill, declared that in some of the smaller mills the working complement numbered but thirty men.

The Bethlehem company has reduced its force of eighty-five uniformed guards about the plant to half that number. The order was issued early today. Officials of the company declare that most of the absentee workers are residents of Allentown. Less than a thousand workers in the big plant live in that city, distant five miles from here.

BREAK IN LABORERS' RANKS AT GARY

Chicago, Sept. 30.—(By A. P.)—There were no important changes in the steel strike situation in the Chicago district. No serious disturbances occurred and the authorities at Waukegan, Ill., denied a report that they planned to make another appeal to Governor Lowden for state troops.

Rain dampened the activity of union pickets at most of the plants. At Gary 300 laborers returned to work at the Indiana Steel Company's plant. Union labor leaders declared that this development was unimportant as the mills cannot be operated without skilled workmen, and they added that this class was standing firm and would refuse to go back. Officials of the company said that the plant was operating on the basis of 25 per cent of the capacity.

There appeared to be less activity than usual at the plant of the Illinois Steel Company in South Chicago, although both sides claimed to be gaining.

SENATORS TO HEAR GARY TOMORROW

Washington, Sept. 30.—(By A. P.)—After Chairman Gary, of the United States Steel Corporation, testifies tomorrow before the Senate committee investigating the steel strike, William Z. Foster, secretary of the strike committee, and Michael S. Tighe, president of the Amalgamated Association of Iron, Steel and Tin Workers, will appear. Foster will be heard Thursday morning.

The committee plans to spend Friday, Saturday and Sunday in the Pittsburgh strike district, if the Senate situation of the peace treaty permits members to be absent. Otherwise they will go to Pittsburgh next week.

Mayor Was Steadfast

Mayor Smith about 6 o'clock Sunday evening arrived at the court house, where he remained with Police Commissioner Ringer and Chief of Police Eberstein until 10:30 o'clock. During the time they were in the building the mayor and his companions remained on the fourth floor after Chief Eberstein had stationed his officers on all the floors and in all stairways.

According to Commissioner Ringer

GEN. WOOD TAKES CHARGE IN OMAHA

By the Associated Press

Omaha, Neb., Sept. 30.—Additional military forces, eleven officers and 250 men from Camp Funston, Kan., and twenty officers and 550 men from Camp Grant, Ill., today joined federal forces already on duty here as a result of the rioting last Sunday. Major General Leonard Wood, commander of the Central Department of the army, also arrived to take charge of the military operations.

The city was quiet during the night and there was no sign of trouble, a heavy rain serving to keep people off the streets. This fact was considered a great aid to the authorities who had taken precautions to guard against a fresh outbreak of Sunday's rioting, which resulted in the lynching of a negro, the death of one white man, injury to many others, heavy damage by fire to the county courthouse and an attempt on the part of a mob to lynch Mayor Edward P. Smith.

Twenty-four negroes dressed in civilian clothes, wearing special police badges and carrying arms, appeared at Twenty-fourth and Cummins streets last night. They said they had been sworn in as special officers by a fire official. Soldiers took them to a fire station, took their weapons away and released them.

Reports today from the hospital where Mayor Smith is confined as a result of the injuries inflicted by the mob were that his condition was improving.

To Probe Sunday's Riot

Decision was expected to be made today by judges of the county district court as to whether there shall be a special grand jury called to investigate the riot. At the same time Governor Samuel R. McKelvie and Attorney General Clarence A. Davis are expected to start an inquiry to fix, if possible, responsibility for Sunday's lawlessness.

Reports today continued to recount how the attempt to lynch the mayor was made after repeated endeavors on his part to prevent rioters from securing William Brown, negro, who was finally taken from the county jail, shot, burned and hanged on the theory he was the man who recently attacked nineteen-year-old Agnes Lobeck.

Major Smith about 6 o'clock Sunday evening arrived at the court house, where he remained with Police Commissioner Ringer and Chief of Police Eberstein until 10:30 o'clock. During the time they were in the building the mayor and his companions remained on the fourth floor after Chief Eberstein had stationed his officers on all the floors and in all stairways.

THREE ARE LYNCHED WITHIN 12 HOURS

By the Associated Press

Montgomery, Ala., Sept. 30.—(By A. P.)—John Temple, a negro, who last night shot and fatally wounded Police-man John Barbare and who was wounded by the officer, was shot to death as he lay in bed in a hospital shortly after 2 o'clock this morning by a small band of white men.

He was the third negro to die by lynch law within a period of twelve hours. Miles Phifer and Robert Crosby, the latter a discharged soldier, having been shot to death by a mob five miles from the city yesterday afternoon. Still another negro, Bird Astor, who was with Temple when Barbare was shot, was being sought by a posse and it was believed his capture would result in more mob violence.

Another negro, Ben Miller, a former soldier, was shot and wounded early today on a downtown street. He reported four white men had attempted to get him into an automobile and he was shot when he refused to go with them.

Governor Kilby intervened today in the situation. Judges of the Circuit Court and the sheriff were called into conference to determine action to be taken by the county or state officials.

Decision was expected to be made today by judges of the county district court as to whether there shall be a special grand jury called to investigate the riot. At the same time Governor Samuel R. McKelvie and Attorney General Clarence A. Davis are expected to start an inquiry to fix, if possible, responsibility for Sunday's lawlessness.

PLANNED TO KILL SCHWAB

By the Associated Press

Kitchener and Fisher Also Were Marked for Death, Brincken Says

San Francisco, Sept. 30.—Charles M. Schwab, Sir Cecil Spring-Rice, formerly British ambassador to the United States; Lord Fisher, of the British admiralty; the late Lord Kitchener and the British vice consul at Ensenada, Mexico, were marked, for assassination by agents of the German Government, according to sworn testimony given by former First Lieutenant Wilhelm von Brincken, formerly military attaché of the German consulate in San Francisco, to Commissioner of Immigration Henry M. White, of Seattle.

A transcript of the statement was received here by Attorney Henry M. Owens, Von Brincken's legal adviser in San Francisco. Von Brincken is serving a two-year sentence in the federal penitentiary at McNeil's Island for the part he played in the so-called Hindu conspiracy cases.

Montgomery, Ala., Sept. 30.—(By A. P.)—John Temple, a negro, who last night shot and fatally wounded Police-man John Barbare and who was wounded by the officer, was shot to death as he lay in bed in a hospital shortly after 2 o'clock this morning by a small band of white men.
